Understanding the Swiggy User

INTRODUCTION

- An Empathy Map helps us understand the user better.
- It shows what the user says, thinks, feels, sees, hears and does.
- For this task, the user is a college student who uses the Swiggy app to order food.

GOAL: To understand the user's needs, feelings and expectations.

Empathy Map – Swiggy User

- "I want to order food easily."
- "Is there any offer or discount?"
- "How long will my food take?"
- "I want to track my order."

- Will my food arrive on time?
- Will the food be fresh and tasty?
- Which restaurant should I choose?
- Is the price affordable?

- Hungry when ordering food.
- Excited to receive the food.
- Happy when the order arrives on time.
- Disappointed when the order is late or wrong.

Empathy Map – Swiggy User

SEES

- Food and restaurant pictures
- Menu and prices
- Offers and discounts
- Delivery time
- Order tracking status

HEARS

- Friends talking about their favourite food.
- Offers and promotions.
- Order confirmation messages.
- Delivery updates.

DOES

- Opens the Swiggy app.
- Searches for food or restaurants.
- Checks the menu and offers.
- Selects food and adds it to the cart.
- Places and tracks the order.
- Receives the food.

User Needs, Frustrations & Expectations

USER NEEDS

- Easy-to-use app
- Clear menu and prices
- Fast delivery
- Easy payment
- Good offers and discounts
- Easy order tracking

USER FRUSTRATIONS

- Late delivery
- High price or extra charges
- Payment problems
- Wrong or missing items
- Food not being fresh or hot

USER EXPECTATIONS

- Food should arrive on time.
- Food should be fresh and tasty.
- Prices and offers should be clear.
- Ordering should be simple and quick.
- Customer support should respond quickly.

User Reviews / Feedback

POSITIVE FEEDBACK

- Users like the variety of food choices.
- Some users are happy with fast delivery.
- Customers like the offers and discounts.
- Easy ordering and tracking are appreciated.

NEGATIVE FEEDBACK

- Some users face late delivery.
- Some customers receive cold or incorrect food.
- Some users face payment or refund problems.
- Extra charges may disappoint users.

 **From the feedback: Users mainly expect good food quality, affordable prices, fast delivery and smooth service.**

Conclusion

KEY TAKEAWAY

- The Empathy Map helps us understand the user's experience.
- Swiggy users mainly want good food, affordable prices, fast delivery and easy ordering.
- Understanding these needs and problems can help improve the food delivery experience.

THANK YOU
